 Qualified in Nassau County  
 Cert. filed with N. Y. Co.  
 Commission Expires March 30, 1969

Re Item 5 of Amendment to  
Registration Statement

Attempting to provide information to persons or organizations who manifest an interest in possible business ventures in Chile is a comparatively recent function of the New York Office.

We provide information regarding the general climate in Chile for private capital investment, pointing out possibilities for and Chile's interest in individuals or companies doing business in Chile, if their capital, managerial experience and technology might lead to successful investment and accelerate Chile's economic growth. Data pertaining to the conditions for doing business in Chile are furnished where requested, such as general information on taxes, local labor availability and conditions, surveys of natural resources, and other similar general statistics.

We supplement the work of the Foreign Investment Committee of Fomento's principal office in Santiago with respect to applications made to that committee by private businessmen who indicate an interest in making investments in Chile. Where appropriate, we also provide general information regarding the above matters through Fomento's direct contacts with business and financial leaders in United States with whom we have had business or financial relations during the 25 years our office has been established here. These activities are carried on strictly in the interest of economic development and do not entail political activities.
